1. The telephone exchange in Tecuci is installed in a building located in the eastern part of town on the east side of the Public Park and about 100 meters from the road which leads to the main bridge over the Barlad River.
2. The telephone exchange in Tecuci is equipped with five central switchboards of a maximum capacity of 100 drops each. Presently the telephone exchange uses only 180 drops. The telephone numbers are of two and three digits. The first digit of the three digit number is 0 or 1. The system in use is manual and is referred to in Rumanian as "System BL" (local battery system). Three-volt dry cell batteries are installed in subscribers' homes.
3. Attached are two sketches:
